Euphoria Perfume

The first thing you catch is a wonderful euphoric aroma of fresh mango, a citrus-floral scent which evokes languid sunshine, turquoise sea, exotic fruits, flowers, and palm-lined white sandy beaches. People notice this fresh scent and comment on it.

Use only a little on each pulse point to enjoy this refreshing, playful, and aesthetically pleasing perfume. Euphoria is a floral tonic for stress, anxiety and depression, promotes emotional optimism and helps release rigid attitudes.

Each exquisite perfume bottle lives in a unique polished Hawaiian Mango hardwood jacket that Maryann's husband, sculptor Markus Broyles, hand crafts serving to protect, preserve, and beautify this timeless keepsake. As a special finishing touch, Maryann reverently anoints each treasure with precious sandalwood supreme oil, bringing out the luster and grain, as well as invoking well wishes for all.

Euphoric blend of 100% pure organic essential oils.. No alcohol and no carrier oil.

Apply a small amount on the pulse points of the wrists and a drop behind each ear.

Let this fragrance lift you above the clouds and celebrate the Sun.
